

IN THE SPECIFICATION:

A clean version of a substitute specification and a corresponding marked up version of the substitute specification are attached as Appendix A and Appendix B, respectively.

IN THE CLAIMS:

A marked-up version of the claims, showing changes made, may be found in Appendix C, attached hereto. Below is a clean set of all pending claims, incorporating any additions, cancellations, and amendments thereto. Please substitute these claims for pending claims of the same number. Unchanged claims are included for the Examiner's convenience.

1. (Amended) A system, comprising:

at least two modules coupled to one another, each of the at least two

modules having a display screen,

wherein a display screen of a first module and a display screen of a second module is to form a first viewing area when the first module is placed adjacent to the second module,

wherein the first module comprises a first set of internal components and the second module comprises a second set of internal components, the first set of internal components and the second set of internal components to form a computer.

2. (Unchanged) The system of claim 1, wherein when the first module is folded over the second module such that neither the display screen of the first module nor the display screen of the second module is visible, a low power-consumption mode is set.
